SUMMARY

AI/ML Engineer with a BCA specialization in Artificial Intelligence, Machine Learning, Robotics & IoT. Experienced in developing AI-powered applications using Python, OpenCV, Flask, and Azure technologies. Built projects in computer vision, web development, and intelligent automation, with hands-on experience through internship and academic projects. Passionate about creating practical AI solutions that improve learning and user experience.

TECHNICAL SKILLS

- Programming: Python | Java | C++ | C
- AI/ML & Data: Machine Learning | AI | Deep Learning | Data Analysis | OpenCV | YOLOv11 | TensorFlow | Pandas | NumPy | Data Structures & Algorithms | Label Studio
- Cloud: Microsoft Azure — Certified in AI Fundamentals & Data Fundamentals
- Web: HTML5 | CSS3 | JavaScript | Flask | Firebase (Authentication, Realtime Database)
- Tools: API Integration | Automation | Git | VS Code | Netlify | Raspberry Pi

ACADEMIC BACKGROUND

BCA (Artificial Intelligence, Machine Learning, Robotics & IoT) with Microsoft **(Jul 2023 – April 2026)**
Yenepoya Institute of Arts, Science, Commerce & Management, Mangalore
CGPA : 9.7

Higher Secondary (Computer Science) **(2021 – 2023)**
SNDP HSS Aluva

PROJECTS

SIH Mudra Recognition Project **Sep 2025**
Developed a real-time gesture recognition model using Python, OpenCV, YOLOv11 & Label Studio.

Color-Based Pick and Place Robotic Arm **Jul 2025**
Created a robotic arm with Python and OpenCV that identifies and sorts items by color.

AdrenaLearn – Personalized AI Learning Assistant **2025–2026**
Developed an AI-powered learning assistant that helps students with personalized studying, planning, and productivity through intelligent automation.

PROFESSIONAL EXPERIENCE

AI / ML Intern at Cureocity, Kochi **(Jan 2026 - April 2026)**
Developed high-speed tracking with custom MediaPipe setups and OpenCV tools.
Added workout-form detection and studied next-gen pose methods for stronger performance.

Project Manager at Ignite Digital Marketing Agency **(Oct 2024 - Oct 2025)**
Managed digital content creation for social media campaigns and explored AI tools to automate visual content generation and optimize workflows.

CERTIFICATIONS

- **Microsoft Certified:** DP-900, AI-900 , PL-900 , AZ-900 , SC-900, Create Effective Prompts for Generative AI Training Tools
- **Coursera:** Developing AI Applications with Python and Flask, Exploratory Data Analysis for Machine Learning, IBM Introduction to Machine Learning Holder of 30+ additional certificates from Coursera and other platforms covering Python, Java, AI, Deep Learning, and Data Science.

CORE COMPETENCIES

Problem Solving | Critical Thinking | Team Collaboration | Time Management | Creative Thinking | Communication
